*Lush, beautiful lawns  
without the maintenance*

**Artificial grass has never looked more natural.**

Control your maintenance headaches with SYN Lawn synthetic landscape grasses. Constant mowing, fertilizing, irrigating and general upkeep can be very costly just to maintain a healthy appearance. SYN Lawn virtually eliminates those costs and gives you a high-performance, always green landscape grass. SYN Lawn is able to withstand harsh environmental conditions, heavy foot traffic and can be used in many places where natural grass simply can not. Contact us for more information.

# Garage Cabinets-They All Look The Same

"They all look the same" is a common comment heard from homeowners shopping for garage cabinets. "What's the difference?"

The most noticeable is the shelf hanging system. Pushpin shelf systems are not designed for heavy-duty applications. An adjustable shelf

system such as manufactured by Alpine Garage Cabinets have steel shelf hangers that slide into the cabinet side-wall. These shelves are fitted over the hangers and cannot

slide forward off the hangers and the hangers cannot fall out or tear out. This system has been tested to 500 lbs.

per shelf

This cabinet system also has a hardwood foundation with steel leg levelers to support maximum weight unlike the wall mounted system which is screwed to

the wall trying to hold a fully loaded 600 lb cabinet.

Check out this unique Iron Man Garage Cabinet system manufactured by Alpine Garage Cabinets located at Map #3.

**Features:**

- Steel exterior with limited lifetime warranty and 25 year paint guarantee.
- Several sizes & colors to choose from.
- Many custom options possible.

# Wall Creativity – It Takes An Artist

Creating warmth and personality is in the details of finishing your space. Artists sculpting the details is a new and extraordinary option to create beautiful wall textures. Prices can be similar to or slightly above painted, two dimensional patterns but what a difference to your eye and the presence of the room.

Sculpted ornaments are details that can be positioned anywhere from ceiling to pillars. Motifs can be taken from established themes to original by artists and translated into new approaches and applications such as the raised image in a mural.

Yes, it takes an artist for the fine handling and modeling. While it may look easy, assuredly, it's a sculptor's art. Visit

Studio Chromaterra (map #16) to meet the artist and see samples of raised patterns and sculpted images.

Relax. Milgard can help you make the right choice when replacing your windows. Our new Tuscany™ Series has innovations like Milgard's exclusive SmartTouch™ lock. It offers one-touch operation, so you can unlock and open the window with just one hand. Thanks to its energy-efficient design and SunCoat® glass, the Series has earned the ENERGY STAR®. Milgard windows are covered by a Full Lifetime Warranty, for as long as you own and reside in your home. Plus, the Tuscany Series has the added protection of Glass Breakage coverage.
